DETAILED ACTION

1. Claims 1-29 are pending and under consideration.

Specification

The disclosure is objected to because of the following informalities:

Page 1, lines 7-10, the status of the applications need to be updated,

Appropriate correction is required.

Drawings

2. Figure 2 is objected to because "Bacterimia" should be "Bacteremia". The objection to the drawing will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, step b) lists production of an insoluble "faction". It is unclear what is meant by the term "faction".

Claims 2-10 depend from claim 1, but do not correct the indefiniteness.

Art Unit: 1645
